

*Generalized Unitization Wish List  
for  
Louisiana Department of Natural Resources  
Unitization*

**MANAGEMENT**

Overall project objectives

**G & G DEPARTMENTS**

- Scale base map showing all wells/well bores (vertical & deviated), proposed locations/targets (proposed surface and bottom hole locations) and surface location impediments
- Subsurface and seismic horizon maps for all drilling objectives showing prospective/productive lateral extents
- All fault plane maps related to mapped horizons
- Top and base (electric log measurements) for the proposed interval definition including the subject well log

**LAND/LEGAL DEPARTMENTS**

- Oil and gas lease map (including accurate land ownership partition positions) displaying all client mineral leases and non-client leases with lease/farmout schedule (for rental/expiration time frame issues, etc.)
- Current names and addresses of all mineral and other ownerships within a ¼ mile perimeter of the future proposed unit area (for the future interested parties lists and LDNR unit filings)
